## PRESS RELEASE

### LoadAlone™ Adds Personal Protection Layer to Funeral Directors Amidst Covid-19 Pandemic

NEWARK, NY -- For Immediate Release-- The nationwide spread of the Covid-19 Virus has Funeral Directors searching for alternate solutions such as LoadAlone™ to provide service to those in need while maintaining their own personal diligence with health issues unique to the pandemic.

LoadAlone™, developed by Mortuary Transport and Trade Supplies, is an affordable automated mortuary cargo loading system gaining widespread installations in the industry. Already accepted as a solution that helps prevent back injuries, it provides an additional layer of personal protection to Funeral Directors who do removals from hospitals and nursing homes.

“We want to do whatever can be done to minimize the risk to industry personnel of contracting Covid-19,” says LoadAlone™ inventor and founder Dave P Murphy, a NYSFD and NFDA member and himself a licensed funeral director. As a result, Mr. Murphy says, “We are currently offering qualified buyers steep discounts of up to 33% on our products.”

A demo of the LoadAlone™ solution can be seen at <https://youtu.be/PKt11y7hZY> or online at [www.loadalone.com](http://www.loadalone.com). The loading system fits most standard SUC, vans and Hearses, is easily installed and removed whenever necessary.

LoadAlone™ are Made in America products and could help reduce the risk of contracting Covid-19 because:

- a) LoadAlone™ is a non-porous surface made of Formica.
- b) Its ramps are stainless steel.
- c) LoadAlone™ easily disinfects, thus reduces exposure to those doing removals.
- d) Only one person needs to go on a removal to hospitals and nursing homes, thus limiting exposure.
- e) Since no lifting is required to load the bodies when using LoadAlone™ it reduces fatigue. When fatigued, resistance to illness is reduced.

According to Mr. Murphy, “We want to do our part in the national crisis and therefore, until we are out of the crisis, we have reduced the price of LoadAlone™ by 33% to \$2,350 for the two-piece unit and to \$2,000 for the LoadAlone™ Hearse.” Orders can be placed online on the Company’s website or by calling 845 598 1681.

LoadAlone™ asks that you stay safe, stay healthy, and work smarter.
